

Name : **Pallavi Vadlamudi**

Designation : Assistant professor

Department : Pharmaceutics

Research area of interest: Novel drug delivery

Teaching methodologies

- ❖ Pay attention to students' strengths and weaknesses. Reward their strengths.
- ❖ Arousing interest by choosing a topic that creates enthusiasm and excitement in the pupils.
- ❖ Follow various instructional strategies – lectures, demonstrations [live, power point presentations and videos] and group discussions.
- ❖ Review the learning objectives – let the student to know what they are expected to learn and apply.
- ❖ Conduct quiz to escalate the logical reasoning and problem solving skills.
- ❖ Motivate the student by live examples from day-to-day life.
- ❖ Pose logical and reasoning questions to improve the concentration and attention.
- ❖ Encourage student seminars to improve communication skills.
- ❖ Collect constructive feedback for betterment.
