VISION

To inculcate excellence in various fields of pharmacy, mould the institution as centre of excellence in terms of academics and advanced research.

MISSION

Committed to impart quality pharmacy education and research to meet global standards.

QUALITY POLICY

Chalapathi Institute of Pharmaceutical Sciences is committed to impart quality pharmacy education to the growing needs of the society by implementing Quality Management System on a continual contact basis and continually improved services. We shall protect the interest of our students and prepare them to meet growing challenges with increased ability to serve the nation and society.

PHARMACIST'S OATH

01. I swear by the code of ethics of Pharmacy Council of India in relation to the community and shall act an integral part of health care team.
02. I shall uphold the laws and standards governing my profession.
03. I shall strive to perfect and enlarge my knowledge to contribute to the advancement of pharmacy and public health.
04. I shall follow the system, which I consider best for pharmaceutical care and counselling of patients.
05. I shall endeavour to discover and manufacture drugs of quality to alleviate sufferings of humanity.
06. I shall hold in confidence the knowledge gained about the patients, in connection with professional practice and never divulge unless compelled to do so by the law.
07. I shall associate with organization having their objective, for betterment of the profession of pharmacy and make contribution to carryout the work of those organizations.
08. While I continue to keep this oath in violated, may it be granted to me to enjoy life and the practice of pharmacy respected by all, at all times.
09. Should I trespass and violate this oath, may the reverse be my lot !

PROGRAMME EDUCATIONAL OBJECTIVES

Programme : B.Pharmacy

PEO1-Proficiency: Programme encompasses the students with profound functional knowledge in core subjects of pharmaceutical sciences like pharmaceutical chemistry, pharmaceutical analysis, pharmaceutics, pharmacognosy, pharmacology and pharmacy practice. This enables students to be competent enough and apply these tools in pharmaceutical and health care industries, research / clinical laboratories, hospitals and community pharmacies for overall maintenance of public health.

PEO2- Practicability (Practical aptitude) : Implementation of innovative teaching learning methodologies with visual aids/ computer aided tools empowers the students in understanding the concepts with clarity and transparency. Students are trained in handling sophisticated equipment and in their troubleshooting procedures, problem based learning which makes them to apply the learned theoretical concepts to real time applications and meet the current pharmaceutical industrial demand.

PEO3-Lifelong learner (Liaisons): To develop globally accepted competent students in terms of punctuality, amicability, communication skills and self learning. Students are encouraged to participate in class room seminars, group discussions, exhibitions, quizzes, conferences, symposia, seminars, workshops and health care programs. This enables the students with specific hard skills, capable of understanding the most advanced technologies, research and can integrate this knowledge and skills with contemporary needs of the society.

PEO4-Collaborator: To inculcate collective learning, knowledge sharing and knowledge transfer through their involvement in interdisciplinary research activities and to improve leadership, team work and managerial skills which helps them to play influential roles either in an organisation or in community.

PEO5-Professionalism: To promote the development of scholarly thinking, professional identity and ethics among the students for their further professional growth either in the pharmaceutical and health care industries or to pursue higher studies and research.

PROGRAMME OUTCOMES

PO1: Pharmacy Knowledge: Possess knowledge and comprehension of the core and basic knowledge associated with the profession of pharmacy, including biomedical sciences; pharmaceutical sciences; behavioural, social, and administrative pharmacy sciences; and manufacturing practices.

PO2: Planning Abilities: Demonstrate effective planning abilities including time management, resource management, delegation skills and organizational skills. Develop and implement plans and organize work to meet deadlines.

PO3: Problem analysis: Utilize the principles of scientific enquiry, thinking analytically, clearly and critically, while solving problems and making decisions during daily practice. Find, analyze, evaluate and apply information systematically and shall make defensible decisions.

PO4: Modern tool usage: Learn, select, and apply appropriate methods and procedures, resources, and modern pharmacy-related computing tools with an understanding of the limitations.

PO5: Leadership skills: Understand and consider the human reaction to change, motivation, issues, leadership and team-building when planning changes required for fulfilment of practice, professional and societal responsibilities. Assume participatory roles as responsible citizens or leadership roles when appropriate to facilitate improvement in health and wellbeing.

PO6: Professional Identity: Understand, analyze and communicate the value of their professional roles in society (e.g. health care professionals, promoters of health, educators, managers, employers, employees).

PO7: Pharmaceutical Ethics: Honour personal values and apply ethical principles in professional and social contexts. Demonstrate behaviour that recognizes cultural and personal variability in values, communication and lifestyles. Use ethical frameworks; apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions.

PO8: Communication: Communicate effectively with the pharmacy community and with society at large, such as, being able to comprehend and write effective reports, make effective Presentations and documentation, and give and receive clear instructions.

PO9: The Pharmacist and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety and legal issues and the consequent responsibilities relevant to the professional pharmacy practice.

PO 10: Environment and sustainability: Understand the impact of the professional pharmacy solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO11:Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACEUTICS / INDUSTRIAL PHARMACY**

PEO 1 To impart sound pharmaceutical knowledge, scientific principles to make them ever-ready for producing quality, safety and effective pharmaceutical formulations.

PEO 2 To develop creative thinking, innovative strategies to overcome therapeutic challenges with customized medicines time to time for society.

PEO 3 To produce skilled pharmaceutical professionals, leaders, policy makers and entrepreneurs for building healthy nation.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACEUTICS / INDUSTRIAL PHARMACY**

PO 1 Scientific knowledge: To apply the scientific and technological principles to design, develop effective pharmaceutical dosage forms and drug delivery systems for better therapeutic results.

PO 2 Technological applications: To utilize technical knowledge and identify any factors affecting the quality of pharmaceutical production.

PO 3 Modern tool usage: Learn, select, apply appropriate methods, procedures, resources, and modern pharmacy-related computing tools with an understanding of the limitations.

PO 4 Entrepreneurship: To understand the basics of establishing and management of pharmaceutical enterprise.

PO 5 Practical skills: To gain practical expertise in formulating and evaluating various novel drug release systems for minor ailments to major diseases.

PO6 Applied science: To employ contemporary scientific knowledge viz., pharmacology, biotechnology for designing disease-centric pharmaceuticals.

PO 7 Computational and statistical methodologies: Applying and utilizing the statistical tools with the aid of computer software to optimize the formulations.

PO 8 Pharmaceutical ethics: To respect personal values and apply ethical principles in professional and social contexts. Demonstrate behavior that recognizes cultural, personal variability in values, communication and lifestyles. Use ethical frameworks; apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions.

PO 9 Environment and sustainability: To understand, protect and cooperate environmental concerns for sustaining biodiversity.

PO10 Life-long learning: To develop the habit of updating knowledge from time to time to meet industrial demands and social needs for having a fruitful career.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACEUTICAL ANALYSIS**

PEO1 Erudition: Program encompasses the students with profound functional knowledge in core subjects of pharmaceutical Analysis. This enables students to understand the basics of analytical methods to test the drug molecules. This will also enable students to learn the basic theory of analytical tools.

PEO2 Substantive skills: To provide students with a strong foundation of analytical aspects such as handling of instruments, principles, method development, method validation, testing of samples and report the results accurately.

PEO3 Breadth: To train students to understand different hyphenated techniques and apply them practically. To train the students to understand different bio-analytical methods and analyze the bio-analytical samples.

PEO4 Analytical skills: Implementation of innovative teaching learning methodologies with visual aids/ computer aided tools empowers the students in understanding the concepts with clarity and transparency. Students are trained in handling of software's to report the results in a transparent manner.

PEO5 Personal Attribute: To inculcate in students professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach and an ability to relate Pharmaceutical and Health care issues to broader social context.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACEUTICAL ANALYSIS**

PO 1 Analytical Knowledge: Acquire knowledge on various chromatographic and spectroscopic techniques and differentiate with volumetric analysis.

PO 2 Analytical Reasoning: To categorize assumptions and disclose the data according to guidelines.

PO 3 Problem Solving: To utilize the principles of analytical techniques with clear and critical thinking, while solving problems and making decisions. Find, analyze, evaluate and apply information systematically and shall make defensible decisions.

PO 4 Modern Techniques: To learn, choose and apply appropriate hyphenated methods and procedures and related computing tools with thoughtfulness of their applications.

PO 5 Experimental Ethics: To believe and follow ethics and guidelines specified by the regulatory authorities of various countries and Government of India for good laboratory practice.

PO 6 Interdisciplinary Commitment: To acquire skill oriented practical ability and utilize the needs of pharmacy in all other programmes to emerge as potent researcher.

PO 7 Professional Identity: To be committed and responsible person to play a proactive role with loyalty to community and to empower society.

PO 8 Statistical Skills: To apply and evaluate quantitative metrics to gain safety data on dosage and also to compare the effectiveness among different marketed formulations.

PO 9 Rational Flexibility: To engage in critical and logical thinking and to gain an overall knowledge in developing newer methods, impurity profiling and validation protocols those are useful in routine and laboratory purpose.

PO 10 Environment and Sustainability: To understand the level of biohazardous solvents and chemicals in relation to environmental contexts and sustainable development.

PO 11 Lifelong Learning: Understand and apply the concepts in day to day life activities for the benefit of self and for the welfare of society.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACOLOGY**

PEO 1 Innovation Culture : Devise research strategies for empowering and promoting culture of innovation among students for the industrial needs. Also encourage and excel the students to perform their skills in the areas of interest to promote the potency and zeal towards research.

PEO 2 Professional Interaction : Develop comprehensive skills by identifying time to time life situations and keep updating the knowledge professionally for community up-liftment. Also acquire higher order thinking skills and become professionally competent to take up careers in academics, health care and service industry.

PEO 3 Global Health Care : Integrate and apply techniques to advance the research scenario for the welfare of Global health care. Also acquire knowledge on diagnostic, therapeutic, rehabilitative and preventive health care for qualitative skills.

PEO 4 Entrepreneurial Spirit : Build capacities and develop practical awareness which results in smooth transition from education to self-employment and finally to entrepreneurship. Also relocate the gained knowledge, skills and training to their own personal interests for socio economic empowerment. o promote the potency and zeal towards research.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACOLOGY**

PO 1 Drug Expertise : Acquire knowledge on various classes of drugs and their mode of actions to unveil the remedies for many ailments.

PO 2 Analytical Reasoning: Identify assumptions and reveal the evidence based reason for the disease or disorder take place, to select the type of relevant treatment.

PO 3 Experimental Ethics : Consider and follow ethics and guidelines specified by the authorities of various agencies and Government of India for animal congenial laboratory practice.

PO 4 Interdisciplinary engagement : Obtain skill oriented practical proficiency by exposing and utilizing the needs of pharmacy in all disciplines to emerge as potent researcher.

PO 5 Professional Identity : Be committed and responsible person to play a proactive role with fidelity to community and empower society.

PO 6 Statistical Skills : Apply and analyze quantitative metrics to gain safety data on dosage, also to compare the effectiveness among experimental groups.

PO 7 Intellectual Flexibility : Engage in critical thinking and gain insight to identify, design and formulate pharmaceutical products that are in need of current aspects by using material from natural sources.

PO 8 Lifelong learning : Understand and apply the concepts in day to day life activities for the benefit of self and for the welfare of society and its concerns.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACEUTICAL REGULATORY AFFAIRS**

PEO1 Cognition: Program encompasses the students with profound functional knowledge in core subjects of pharmaceutical regulatory sciences. This enables students to understand the basics of regulatory compilation, create and assemble the regulation submission as per the requirements of regulatory agencies and be competent enough and apply these tools in pharmaceutical and health care industries, research, clinical laboratories, hospitals and community pharmacies for overall maintenance of public health.

PEO2 Core competence: To provide students with a strong foundation of regulatory and compliance elements with respect to Good Manufacturing Practices, Good Laboratory Practices, Good Automated Laboratory Practices and Good Documentation Practices as well as prepare for the readiness and conduct of audits and inspections.

PEO3 Amplitude: To train students for understanding different acts and guidelines that regulate Drugs & Cosmetics, Medical devices, Biologicals, Herbals and Food & Nutraceuticals industries as well as comprehend the approval process and regulatory requirements for pharmaceutical products in different regulatory markets.

PEO4 Technicality: Implementation of innovative teaching learning methodologies with visual aids/ computer aided tools to empower the students in understanding the concepts with clarity and transparency. Students are trained in handling regulatory software's like e-CTD and in their troubleshooting procedures, problem-based learning which makes them to apply the learned theoretical concepts to real time applications and meet the current pharmaceutical industrial demand in regulatory market.

PEO5 Adroitness: To inculcate in students professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach and an ability to relate Pharmaceutical, Health care issues to broader social context.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACEUTICAL REGULATORY AFFAIRS**

PO1 Regulatory Knowledge: Possess knowledge, comprehension of the core and basic knowledge associated with the profession of Pharmaceutical Regulatory Sciences, including drug development process, dossier preparation, good manufacturing practices, clinical trials and human research.

PO2 Planning Abilities: Demonstrate effective planning abilities and elements that are necessary to accumulate the regulatory submissions including time management, resource management, delegation skills and organizational skills. Develop and implement plans and organize work to meet deadlines.

PO3 Problem analysis: Utilize the principles of scientific enquiry, thinking analytically, clearly and critically, while solving problems and making decisions during daily practice. Find, analyze, evaluate and apply information systematically and shall make defensible decisions while reviewing and submission of dossiers to regulatory markets.

PO4 Modern tool usage: Learn, select, and apply appropriate methods and procedures, resources and modern regulatory-related computing tools with an understanding of their limitations.

PO5 Collaboration and Team Work: Understand and consider the human reaction to change, motivation, issues, leadership and team-building when planning changes required for fulfilment of practice, professional and societal responsibilities which also includes interpersonal skills, knowledge sharing and strategy in between members of a virtual team.

PO6 Ethics: Use ethical frameworks, apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions in clinical research and clinical investigations.

PO7 Regulatory Professional: Understand, analyze and communicate the value of their professional roles in society and business development and be reliable with critical thinking and regulatory writing skills.

PO8 Cross Cultural Communication: Appreciation of and ability to learn from and work with people from diverse linguistic and cultural backgrounds. It should emphasize how regulatory strategy increases a products chance of entering a market and staying there. Once cross-functional teams understand regulatory strategy and its importance in product development and inter-team communication.

PO9 Initiative and Entrepreneurialism: Individual's ability to turn ideas into practice. Like finding new opportunities to share information and concepts. Generating options and solutions to cope with changes. It involves imagination, novelty and risk-taking, as well as the ability to plan and manage projects in order to achieve objectives.

PO10 Creativity and Innovation: Function of knowledge, curiosity, imagination, and evaluation. The greater individual knowledge base and level of curiosity, the more ideas, patterns, and combinations will achieve, which then correlates to creating new and innovative products and services.

PO11 Lifelong Learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. Self- access and use feedback effectively from others to identify learning needs and to satisfy these needs on an ongoing basis.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : PHARM.D**

PEO1 *Fundamental knowledge:* *Develop and demonstrate the depth and breadth of knowledge from the foundational sciences in core subjects of pharmaceuticals, pharmaceutical chemistry, pharmacotherapeutics, social, behavioural, administrative, health policies and clinical sciences to evaluate the scientific literature, elucidate drug action, identify and solve therapeutic problems, and advance population health and patient-centered care.*

PEO2 *Practice and care:* Provide patient-centered care as the medication expert and prioritize patients need and manage patient healthcare needs using human, financial, technological, and physical resources to optimize the safety and efficacy of medication use systems, graduates will be able to design prevention, intervention, and educational strategies for individuals and communities to manage chronic disease and improve health and wellness. Effectively communicate verbally and nonverbally when interacting with an individual, group, or organization.

PEO3 *Lifelong learning and innovation:* Demonstrate the ability to set personal and professional goals and priorities, effectively plan and manage time, and organize work. identify and analyze emerging issues, products, and services that may affect public health policy, patient-centered and population-based therapeutic outcomes, medication use systems, and pharmacy benefits, develop new ideas and approaches to improve quality or overcome barriers to advance the profession. Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.

PEO4 Interprofessional collaboration: Collaborate as an integral part of an interprofessional team, inclusive of patients, caregivers, colleagues, health professionals and members of the community to make patient-centered pharmacotherapy decisions and care plans; prevent, identify, and resolve drug-related problems; and promote patient-centered and population-based health and actively participate and engage as a healthcare team member by demonstrating mutual respect, understanding, and values to meet patient care needs.

PEO5 Traits Improvement and Professionalism: Exhibit behaviours and values consistent with the trust given to the profession by patients, other healthcare providers, and society. Take responsibility for health outcomes and make rational and ethical decisions that represent the best interest of the patient and the community. Respect and actively engage the patient, the community, and other health professionals as well as respect the privacy and confidentiality of health information.

PROGRAMME OUTCOMES (PO'S)**Programme : PHARM.D**

PO1 Comprehensive pharmacy and clinical knowledge : Demonstrate mastery and application of core knowledge and skills in relation to the evolving pharmaceutical, biomedical, clinical and epidemiological sciences. This includes competency in areas supporting high quality pharmacy practice (e.g., pharmaceutics, medicinal chemistry, pharmacokinetics, pharmacodynamics, pharmacology, pathophysiology, pharmacotherapeutics, and pharmaceutical care).

PO2 Patient centered care : Provide patient-centered care to diverse patients using the best available evidence and in consideration of patients' circumstances to devise, modify, implement, document and monitor pharmacotherapy care plans, either independently or as part of healthcare teams.

PO3 Problem solving and decision making : Demonstrate the ability to use observational, analytical and critical thinking skills to develop, implement and evaluate solutions that solve pharmacotherapy problems and build the ability to take decisions based on evidenced based practice.

PO4 Social and cultural awareness : Recognize social determinants of health and respect patients' cultural, social and religious perspectives to produce safe and appropriate medication use throughout society. Reflect their knowledge, experiences, values, attitudes, biases and beliefs, to show evidence of being self-aware and life-long learners.

PO5 Professionalism : Exhibit professional ethics, attitudes and behaviors by demonstrating patient advocacy, altruism, accountability, compassion, integrity and respect for others. Understand, analyze and communicate the value of their professional roles in society (Ex. Health care professionals, health promoters, educators, managers, employers and employees).

PO6 Innovation and entrepreneurship : Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals. Utilize the principles of scientific enquiry and critical thinking while solving problems and making decisions in daily practice. Attain the key ability to start a community pharmacy or chain community pharmacies with patient care services.

PO7 Confidentiality and professional ethics : Practice ethically, maintaining patient confidentiality, responding to errors in care and professional misconduct (including plagiarism), and understanding principles of ethical research (including conflicts of interest and obtaining appropriate informed consent). Apply ethical principles while making decisions and take responsibility for the outcomes associated with decisions.

PO8 Interpersonal and communication skills : Demonstrate effective interpersonal written and verbal skills, adapt to socioeconomic and cultural factors as well as situational applications. Effectively educate families, patients, caregivers and other health care professional (HCPs). Function effectively in a team and act in a consultative position for other members of the health care team, regulatory agencies and policy makers.

PO9 Clinical pharmacist and society : Apply contextual knowledge to assess the societal health care needs and demonstrate effective planning abilities in order to solve problems related to health care practice. Educate and aware the patients regarding the aspect of health and prevention of diseases and provide them a cost-effective drug therapy.

PO10 Environment and sustainability : Understand the impact of professional pharmacy solution in societal and environmental context and demonstrate the knowledge and need of sustainable development.

PO11 Practice based learning and improvement : Evaluate practice and care, and promote continuous improvement in one's own patient care and pharmacy services. Demonstrate self-calibration skills and a commitment to the lifelong learning needed to provide high quality care. Locate, appraise and assimilate evidence from scientific studies to enhance the quality of care and services. Effectively utilize information, informatics and technology to optimize learning and patient care.

ACADEMIC CALENDAR
CLASS : I/IV B. PHARMACY (1st SEMESTER)
BATCH : 2020 EAMCET
ACADEMIC YEAR : 2020-2021

- | | | |
|-----|--|---|
| 01) | Orientation programme for B.Pharmacy | : 24/02/2021 |
| 02) | 1 st Sessional Practical Examination | : 15/04/2021 to 17/04/2021 |
| 03) | 1 st Sessional Theory examination | : 23/04/2021 to 29/04/2021 |
| 04) | Last date for 1 st Assignment submission | : 19/04/2021 |
| 05) | Last date for submission of 1 st Sessional | : 05/05/2021 |
| | Marks Statement by the faculty | |
| 06) | Parent Teacher Meeting | : 08/05/2021 |
| 07) | Pre Semester end Examination (Open Book: examination with objective questions) | 03/06/2021 to 09/06/2021 |
| 08) | Last date for 2 nd Assignment Submission | : 09/06/2021 |
| 09) | 2 nd Sessional Practical Examination | : 10/06/2021 to 12/06/2021 |
| 10) | 2 nd Sessional Theory examination | : 14/06/2021 to 19/06/2021 |
| 11) | Field Work | : Field work should be completed in the month of June |
| 12) | Closing of Class work | : 23/06/2021 |
| 13) | Last date for submission of 2 nd Sessional | : 24/06/2021 |
| | mark statement by the faculty | |
| 14) | Parent-Teacher Meeting | : 26/06/2021 |
| 15) | Semester end Theory Examinations | : 28/06/2021 to 09/07/2021 |
| 16) | Semester end Practical examinations | : 12/07/2021 to 14/07/2021 |

NOTE :

- (1) Quiz and Group discussion are to be organized.
- (2) A skill development course on “Practical Skills in Pharmaceutical Chemistry, Pharmaceutics and human anatomy and physiology” will be organized during the academic year 2020-2021 for a minimum of 30 hours.

ACADEMIC CALENDAR
CLASS : I/IV B. PHARMACY (2nd SEMESTER)
BATCH : 2020 EAMCET
ACADEMIC YEAR : 2020-2021

- | | | |
|-----|--|----------------------------|
| 01) | Commencement of class work and orientation programme | : 16/07/2021 |
| 02) | 1 st Sessional Practical Examinations | : 03/09/2021 to 04/09/2021 |
| 03) | 1 st Sessional Theory Examination | : 06/09/2021 to 11/09/2021 |
| 04) | Last date for 1 st Assignment submission | : 02/09/2021 |
| 05) | Last date for submission of 1 st sessional marks statement by the faculty | : 16/09/2021 |
| 06) | parent-Teacher Meeting | : 18/09/2021 |
| 07) | Dussehra Holidays | : 13/10/2021 to 15/10/2021 |
| 08) | Pre-semester end examination (Open book) | : 19/10/2021 to 21/10/2021 |
| 09) | 2 nd Sessional Practical Examinations | : 22/10/2021 to 23/10/2021 |
| 10) | 2 nd Sessional Theory Examinations | : 25/10/2021 to 30/10/2021 |
| 11) | Last date for 2 nd Assignment submission | : 18/10/2021 |
| 12) | Last date for Closing of Class work for II Semester | : 03/11/2021 |
| 13) | Submission of 2 nd Sessional marks Statement by the faculty | : 05/11/2021 |
| 14) | Parent-Teacher meeting | : 06/11/2021 |
| 15) | Semester end Theory examinations | : 08/11/2021 to 19/11/2021 |
| 16) | Semester end Practical examinations | : 22/11/2021 to 23/11/2021 |
| 17) | 1 st Semester Supplementary examination | : 09/11/2021 to 20/11/2021 |

NOTE :

- (1) Quiz and Group discussion are to be organized.

REVISED ACADEMIC CALENDAR
CLASS : II/IV B. PHARMACY (3rd SEMESTER)
BATCH : 2019 EAMCET
ACADEMIC YEAR : 2020-2021

- | | | |
|-----|---|----------------------------|
| 01) | Orientation programme | : 10.08.2020 |
| 02) | First Sessional Examinations (PRACTICALS) | : 24.11.2020 to 26.11.2020 |
| 03) | First Sessional Examinations (THEORY) | : 26.09.2020 to 01.10.2020 |
| 04) | Dussera Vacation | : 23.10.2020 to 25.10.2020 |
| 05) | Last date for submission of 1 st sessional
marks statement by faculty | : 30.11.2020 |
| 06) | Parents Teachers meeting | : 01.12.2020 |
| 07) | Pongal Vacation | : 14.01.2021 to 16.01.2021 |
| 08) | OPEN-BOOK Examinations | : 22.01.2021 to 25.01.2021 |
| 09) | Second Sessional Examinations (PRACTICALS): | 20.01.2021 to 21.01.2021 |
| 10) | Second Sessional Examinations (THEORY) | : 27.01.2021 to 01.02.2021 |
| 11) | Closing of Class work | : 06.02.2021 |
| 12) | Last date for submission of 2 nd sessional
marks statement by faculty | : 06.02.2021 |
| 13) | Parents Teachers meeting | : 08.02.2021 |
| 14) | Semester End Examinations (PRACTICAL) | : 10.02.2021 to 13.02.2021 |
| 15) | Semester End Examinations (THEORY) | : 17.02.2021 to 24.02.2021 |
| 16) | Second Semester Supplementary | : 16.02.2021 to 27.02.2021 |

Examinations

NOTE : A quiz and group discussion are to be organized.

REVISED ACADEMIC CALENDAR
CLASS : II/IV B. PHARMACY (4th SEMESTER)
BATCH : 2019 EAMCET
ACADEMIC YEAR : 2020-2021

- | | | |
|-----|---|----------------------------|
| 01) | Orientation programme | : 26.02.2021 |
| 02) | First Sessional Examinations (PRACTICALS) | : 19.04.2021 to 20.04.2021 |
| 03) | First Sessional Examinations (THEORY) | : 22.04.2021 to 27.04.2021 |
| 04) | Last date for submission of 1 st sessional
marks statement by faculty | : 03.05.2021 |
| 05) | Parents Teachers meeting | : 05.05.2021 |
| 06) | OPEN-BOOK Examinations | : 14.06.2021 to 16.06.2021 |
| 07) | Second Sessional Examinations (PRACTICALS) | : 17.06.2021 to 18.06.2021 |
| 08) | Second Sessional Examinations (THEORY) | : 19.06.2021 to 24.06.2021 |
