VISION

To inculcate excellence in various fields of pharmacy, mould the institution as centre of excellence in terms of academics and advanced research.

MISSION

Committed to impart quality Pharmaceutical education and research to meet global standards.

QUALITY POLICY

Chalapathi Institute of Pharmaceutical Sciences is committed to impart quality Pharmaceutical education to the growing needs of the society by implementing Quality Management System on a continual contact basis and continually improved services. We shall protect the interest of our students and prepare them to meet growing challenges with increased ability to serve the nation and society.

PHARMACIST'S OATH

01. I swear by the code of ethics of Pharmacy Council of India in relation to the community and shall act an integral part of health care team.
02. I shall uphold the laws and standards governing my profession.
03. I shall strive to perfect and enlarge my knowledge to contribute to the advancement of pharmacy and public health.
04. I shall follow the system, which I consider best for pharmaceutical care and counselling of patients.
05. I shall endeavour to discover and manufacture drugs of quality to alleviate sufferings of humanity.
06. I shall hold in confidence the knowledge gained about the patients, in connection with professional practice and never divulge unless compelled to do so by the law.
07. I shall associate with organization having their objective, for betterment of the profession of pharmacy and make contribution to carryout the work of those organizations.
08. While I continue to keep this oath in violated, may it be granted to me to enjoy life and the practice of pharmacy respected by all, at all times.
09. Should I trespass and violate this oath, may the reverse be my lot !

RULES & REGULATIONS FOR PREVENTION AND PROHIBITION OF RAGGING

The All India Council For Technical Education (AICTE), New Delhi vide its Notification no. 37-3/Legal/AICTE/2009 dated 25-03-2020 has taken a very serious view of ragging incidences in educational institutions and on Directions of the Hon'ble Supreme Court of India vide its Order dated 16.5.2007 has ordered strict implementation of following rules & regulations for Prevention and prohibition of Ragging in technical Institutions.

Various Types of Ragging

The Hon'ble Supreme Court has, inter-alia, mentioned the following types of ragging:-

1. Ragging has several aspects with, among others, psychological, social, political, economic, cultural and academic dimensions.
2. Any act that prevents, disrupts or disturbs the regular academic activity of a student should be considered within the academics related aspect of ragging; similarly, exploiting the services of a junior student for completing the academic tasks assigned to an individual or a group of seniors is also an aspect of academics related ragging prevalent in many institutions, particularly in the technical institutions.
3. Any act of financial extortion or forceful expenditure burden put on a junior student by senior students should be considered an aspect of ragging for ragging economic dimensions.
4. Any act of physical abuse including all variants of it: sexual abuse, homosexual assaults, stripping, forcing obscene and lewd acts, gestured, causing bodily harm or any other danger to health or person can be put in the category of ragging with criminal dimensions.

5. Any act or abuse by spoken words, emails, snail-mails, blogs, public insults should be considered within the psychological aspects of ragging. This aspect would also include deriving perverted pleasure, vicarious or sadistic thrill from actively or passively participating in the discomfiture to others; the absence of preparing 'freshers' in the run up to their admission to higher education and life in hostels also can be ascribed as a psychological aspect of ragging – coping skills in interaction with seniors or strangers can be imparted by parents as well. Any act that affects the mental health and self – confidence of students also can be described in terms of the psychological aspects of ragging.
6. The human rights perspective of ragging involves the injury caused to the fundamental right to human dignity through humiliation heaped on junior students by seniors; often resulting in the extreme step of suicide by the victims.

Actions to be taken against students for indulging and abetting in Ragging in technical institutions Universities including Deemed to be University imparting technical education:-

01. The punishment to be meted out to the persons indulged in ragging has to be exemplary and justifiably harsh to act as a deterrent against recurrence of such incidents. The students who are found to be indulged in ragging should be debarred from taking admission in any technical institution in India.
02. Every single incident of ragging a First information Report (FIR) must be filled without exception by the institutional authorities with the local police authorities.
03. Depending upon the nature and gravity of the offences as established by the Anti – Ragging Committee of the institution, the possible punishments for those found guilty of ragging at the institution level shall be any one or any combination of the following.

- i. Cancellation of admission
 - ii. Suspension from attending classes
 - iii. Withholding / withdrawing scholarship / fellowship and other benefits
 - iv. Debarring from appearing in any test/examination or other evaluation process
 - v. Withholding results
 - vi. Debarring from representing the institution in any regional, national or international meet, tournament, youth festival etc.
 - vii. Suspension/expulsion from the hostel
 - viii. Rustication from the institution for period ranging from 1 to 4 semesters
 - ix. Expulsion from the institution and consequent debarring from admission to any other institution.
 - x. Fine of Rupees 25,000/-
 - xi. Collective punishment: when the persons committing or abetting the crime of ragging are not identified, the institution shall resort to collective punishment as a deterrent to ensure community pressure on the potential raggers.
1. The institutional authority shall intimate the incidents of ragging occurred in their premises along with actions taken to the Council immediately after occurrence of such incident and inform the status of the case from time to time.
 2. Courts should make an effort to ensure that cases involving ragging are taken up on priority basis to send the correct message that ragging is not only to be discouraged but also to be dealt with sternness.

PROGRAMME EDUCATIONAL OBJECTIVES

Programme : B.Pharmacy

PEO1-Proficiency: Programme encompasses the students with profound functional knowledge in core subjects of pharmaceutical sciences like pharmaceutical chemistry, pharmaceutical analysis, pharmaceutics, pharmacognosy, pharmacology and pharmacy practice. This enables students to be competent enough and apply these tools in pharmaceutical and health care industries, research / clinical laboratories, hospitals and community pharmacies for overall maintenance of public health.

PEO2- Practicability (Practical aptitude) : Implementation of innovative teaching learning methodologies with visual aids/ computer aided tools empowers the students in understanding the concepts with clarity and transparency. Students are trained in handling sophisticated equipment and in their troubleshooting procedures, problem based learning which makes them to apply the learned theoretical concepts to real time applications and meet the current pharmaceutical industrial demand.

PEO3-Lifelong learner (Liaisons): To develop globally accepted competent students in terms of punctuality, amicability, communication skills and self learning. Students are encouraged to participate in class room seminars, group discussions, exhibitions, quizzes, conferences, symposia, seminars, workshops and health care programs. This enables the students with specific hard skills, capable of understanding the most advanced technologies, research and can integrate this knowledge and skills with contemporary needs of the society.

PEO4-Collaborator: To inculcate collective learning, knowledge sharing and knowledge transfer through their involvement in interdisciplinary research activities and to improve leadership, team work and managerial skills which helps them to play influential roles either in an organisation or in community.

PEO5-Professionalism: To promote the development of scholarly thinking, professional identity and ethics among the students for their further professional growth either in the pharmaceutical and health care industries or to pursue higher studies and research.

PROGRAMME OUTCOMES - B.PHARMACY

PO1: Pharmacy Knowledge: Possess knowledge and comprehension of the core and basic knowledge associated with the profession of pharmacy, including biomedical sciences; pharmaceutical sciences; behavioural, social, and administrative pharmacy sciences; and manufacturing practices.

PO2: Planning Abilities: Demonstrate effective planning abilities including time management, resource management, delegation skills and organizational skills. Develop and implement plans and organize work to meet deadlines.

PO3: Problem analysis: Utilize the principles of scientific enquiry, thinking analytically, clearly and critically, while solving problems and making decisions during daily practice. Find, analyze, evaluate and apply information systematically and shall make defensible decisions.

PO4: Modern tool usage: Learn, select, and apply appropriate methods and procedures, resources, and modern pharmacy-related computing tools with an understanding of the limitations.

PO5: Leadership skills: Understand and consider the human reaction to change, motivation, issues, leadership and team-building when planning changes required for fulfilment of practice, professional and societal responsibilities. Assume participatory roles as responsible citizens or leadership roles when appropriate to facilitate improvement in health and wellbeing.

PO6: Professional Identity: Understand, analyze and communicate the value of their professional roles in society (e.g. health care professionals, promoters of health, educators, managers, employers, employees).

PO7: Pharmaceutical Ethics: Honour personal values and apply ethical principles in professional and social contexts. Demonstrate behaviour that recognizes cultural and personal variability in values, communication and lifestyles. Use ethical frameworks; apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions.

PO8: Communication: Communicate effectively with the pharmacy community and with society at large, such as, being able to comprehend and write effective reports, make effective Presentations and documentation, and give and receive clear instructions.

PO9: The Pharmacist and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety and legal issues and the consequent responsibilities relevant to the professional pharmacy practice.

PO 10: Environment and sustainability: Understand the impact of the professional pharmacy solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO11:Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACEUTICS**

PEO 1 To impart sound pharmaceutical knowledge, scientific principles to make them ever-ready for producing quality, safety and effective pharmaceutical formulations.

PEO 2 To develop creative thinking, innovative strategies to overcome therapeutic challenges with customized medicines time to time for society.

PEO 3 To produce skilled pharmaceutical professionals, leaders, policy makers and entrepreneurs for building healthy nation.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACEUTICS**

PO 1 Scientific knowledge: To apply the scientific and technological principles to design, develop effective pharmaceutical dosage forms and drug delivery systems for better therapeutic results.

PO 2 Technological applications: To utilize technical knowledge and identify any factors affecting the quality of pharmaceutical production.

PO 3 Modern tool usage: Learn, select, apply appropriate methods, procedures, resources, and modern pharmacy-related computing tools with an understanding of the limitations.

PO 4 Entrepreneurship: To understand the basics of establishing and management of pharmaceutical enterprise.

PO 5 Practical skills: To gain practical expertise in formulating and evaluating various novel drug release systems for minor ailments to major diseases.

PO6 Applied science: To employ contemporary scientific knowledge viz., pharmacology, biotechnology for designing disease-centric pharmaceuticals.

PO 7 Computational and statistical methodologies: Applying and utilizing the statistical tools with the aid of computer software to optimize the formulations.

PO 8 Pharmaceutical ethics: To respect personal values and apply ethical principles in professional and social contexts. Demonstrate behavior that recognizes cultural, personal variability in values, communication and lifestyles. Use ethical frameworks; apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions.

PO 9 Environment and sustainability: To understand, protect and cooperate environmental concerns for sustaining biodiversity.

PO10 Life-long learning: To develop the habit of updating knowledge from time to time to meet industrial demands and social needs for having a fruitful career.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACEUTICAL ANALYSIS**

PEO1 Erudition: Program encompasses the students with profound functional knowledge in core subjects of pharmaceutical Analysis. This enables students to understand the basics of analytical methods to test the drug molecules. This will also enable students to learn the basic theory of analytical tools.

PEO2 Substantive skills: To provide students with a strong foundation of analytical aspects such as handling of instruments, principles, method development, method validation, testing of samples and report the results accurately.

PEO3 Breadth: To train students to understand different hyphenated techniques and apply them practically. To train the students to understand different bio-analytical methods and analyze the bio-analytical samples.

PEO4 Analytical skills: Implementation of innovative teaching learning methodologies with visual aids/ computer aided tools empowers the students in understanding the concepts with clarity and transparency. Students are trained in handling of software's to report the results in a transparent manner.

PEO5 Personal Attribute: To inculcate in students professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach and an ability to relate Pharmaceutical and Health care issues to broader social context.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACEUTICAL ANALYSIS**

PO 1 Analytical Knowledge: Acquire knowledge on various chromatographic and spectroscopic techniques and differentiate with volumetric analysis.

PO 2 Analytical Reasoning: To categorize assumptions and disclose the data according to guidelines.

PO 3 Problem Solving: To utilize the principles of analytical techniques with clear and critical thinking, while solving problems and making decisions. Find, analyze, evaluate and apply information systematically and shall make defensible decisions.

PO 4 Modern Techniques: To learn, choose and apply appropriate hyphenated methods and procedures and related computing tools with thoughtfulness of their applications.

PO 5 Experimental Ethics: To believe and follow ethics and guidelines specified by the regulatory authorities of various countries and Government of India for good laboratory practice.

PO 6 Interdisciplinary Commitment: To acquire skill oriented practical ability and utilize the needs of pharmacy in all other programmes to emerge as potent researcher.

PO 7 Professional Identity: To be committed and responsible person to play a proactive role with loyalty to community and to empower society.

PO 8 Statistical Skills: To apply and evaluate quantitative metrics to gain safety data on dosage and also to compare the effectiveness among different marketed formulations.

PO 9 Rational Flexibility: To engage in critical and logical thinking and to gain an overall knowledge in developing newer methods, impurity profiling and validation protocols those are useful in routine and laboratory purpose.

PO 10 Environment and Sustainability: To understand the level of biohazardous solvents and chemicals in relation to environmental contexts and sustainable development.

PO 11 Lifelong Learning: Understand and apply the concepts in day to day life activities for the benefit of self and for the welfare of society.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-PHARMACOLOGY**

PEO 1 Innovation Culture : Devise research strategies for empowering and promoting culture of innovation among students for the industrial needs. Also encourage and excel the students to perform their skills in the areas of interest to promote the potency and zeal towards research.

PEO 2 Professional Interaction : Develop comprehensive skills by identifying time to time life situations and keep updating the knowledge professionally for community up-liftment. Also acquire higher order thinking skills and become professionally competent to take up careers in academics, health care and service industry.

PEO 3 Global Health Care : Integrate and apply techniques to advance the research scenario for the welfare of Global health care. Also acquire knowledge on diagnostic, therapeutic, rehabilitative and preventive health care for qualitative skills.

PEO 4 Entrepreneurial Spirit : Build capacities and develop practical awareness which results in smooth transition from education to self-employment and finally to entrepreneurship. Also relocate the gained knowledge, skills and training to their own personal interests for socio economic empowerment. o promote the potency and zeal towards research.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY-PHARMACOLOGY**

PO 1 Drug Expertise : Acquire knowledge on various classes of drugs and their mode of actions to unveil the remedies for many ailments.

PO 2 Analytical Reasoning: Identify assumptions and reveal the evidence based reason for the disease or disorder take place, to select the type of relevant treatment.

PO 3 Experimental Ethics : Consider and follow ethics and guidelines specified by the authorities of various agencies and Government of India for animal congenial laboratory practice.

PO 4 Interdisciplinary engagement : Obtain skill oriented practical proficiency by exposing and utilizing the needs of pharmacy in all disciplines to emerge as potent researcher.

PO 5 Professional Identity : Be committed and responsible person to play a proactive role with fidelity to community and empower society.

PO 6 Statistical Skills : Apply and analyze quantitative metrics to gain safety data on dosage, also to compare the effectiveness among experimental groups.

PO 7 Intellectual Flexibility : Engage in critical thinking and gain insight to identify, design and formulate pharmaceutical products that are in need of current aspects by using material from natural sources.

PO 8 Lifelong learning : Understand and apply the concepts in day to day life activities for the benefit of self and for the welfare of society and its concerns.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : M.PHARMACY-REGULATORY AFFAIRS**

PEO1 Cognition: Program encompasses the students with profound functional knowledge in core subjects of pharmaceutical regulatory sciences. This enables students to understand the basics of regulatory compilation, create and assemble the regulation submission as per the requirements of regulatory agencies and be competent enough and apply these tools in pharmaceutical and health care industries, research, clinical laboratories, hospitals and community pharmacies for overall maintenance of public health.

PEO2 Core competence: To provide students with a strong foundation of regulatory and compliance elements with respect to Good Manufacturing Practices, Good Laboratory Practices, Good Automated Laboratory Practices and Good Documentation Practices as well as prepare for the readiness and conduct of audits and inspections.

PEO3 Amplitude: To train students for understanding different acts and guidelines that regulate Drugs & Cosmetics, Medical devices, Biologicals, Herbals and Food & Nutraceuticals industries as well as comprehend the approval process and regulatory requirements for pharmaceutical products in different regulatory markets.

PEO4 Technicality: Implementation of innovative teaching learning methodologies with visual aids/ computer aided tools to empower the students in understanding the concepts with clarity and transparency. Students are trained in handling regulatory software's like e-CTD and in their troubleshooting procedures, problem-based learning which makes them to apply the learned theoretical concepts to real time applications and meet the current pharmaceutical industrial demand in regulatory market.

PEO5 Adroitness: To inculcate in students professional and ethical attitude, effective communication skills, teamwork skills, multidisciplinary approach and an ability to relate Pharmaceutical, Health care issues to broader social context.

PROGRAMME OUTCOMES (PO'S)**Programme : M.PHARMACY- REGULATORY AFFAIRS**

PO1 Regulatory Knowledge: Possess knowledge, comprehension of the core and basic knowledge associated with the profession of Pharmaceutical Regulatory Sciences, including drug development process, dossier preparation, good manufacturing practices, clinical trials and human research.

PO2 Planning Abilities: Demonstrate effective planning abilities and elements that are necessary to accumulate the regulatory submissions including time management, resource management, delegation skills and organizational skills. Develop and implement plans and organize work to meet deadlines.

PO3 Problem analysis: Utilize the principles of scientific enquiry, thinking analytically, clearly and critically, while solving problems and making decisions during daily practice. Find, analyze, evaluate and apply information systematically and shall make defensible decisions while reviewing and submission of dossiers to regulatory markets.

PO4 Modern tool usage: Learn, select, and apply appropriate methods and procedures, resources and modern regulatory-related computing tools with an understanding of their limitations.

PO5 Collaboration and Team Work: Understand and consider the human reaction to change, motivation, issues, leadership and team-building when planning changes required for fulfilment of practice, professional and societal responsibilities which also includes interpersonal skills, knowledge sharing and strategy in between members of a virtual team.

PO6 Ethics: Use ethical frameworks, apply ethical principles while making decisions and take responsibility for the outcomes associated with the decisions in clinical research and clinical investigations.

PO7 Regulatory Professional: Understand, analyze and communicate the value of their professional roles in society and business development and be reliable with critical thinking and regulatory writing skills.

PO8 Cross Cultural Communication: Appreciation of and ability to learn from and work with people from diverse linguistic and cultural backgrounds. It should emphasize how regulatory strategy increases a products chance of entering a market and staying there. Once cross-functional teams understand regulatory strategy and its importance in product development and inter-team communication.

PO9 Initiative and Entrepreneurialism: Individual's ability to turn ideas into practice. Like finding new opportunities to share information and concepts. Generating options and solutions to cope with changes. It involves imagination, novelty and risk-taking, as well as the ability to plan and manage projects in order to achieve objectives.

PO10 Creativity and Innovation: Function of knowledge, curiosity, imagination, and evaluation. The greater individual knowledge base and level of curiosity, the more ideas, patterns, and combinations will achieve, which then correlates to creating new and innovative products and services.

PO11 Lifelong Learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change. Self- access and use feedback effectively from others to identify learning needs and to satisfy these needs on an ongoing basis.

PROGRAMME EDUCATIONAL OBJECTIVES (PEO'S)**Programme : PHARM.D**

PEO1 Fundamental knowledge: Develop and demonstrate the depth and breadth of knowledge from the foundational sciences in core subjects of pharmaceuticals, pharmaceutical chemistry, pharmacotherapeutics, social, behavioural, administrative, health policies and clinical sciences to evaluate the scientific literature, elucidate drug action, identify and solve therapeutic problems, and advance population health and patient-centered care.

PEO2 Practice and care: Provide patient-centered care as the medication expert and prioritize patients need and manage patient healthcare needs using human, financial, technological, and physical resources to optimize the safety and efficacy of medication use systems, graduates will be able to design prevention, intervention, and educational strategies for individuals and communities to manage chronic disease and improve health and wellness. Effectively communicate verbally and nonverbally when interacting with an individual, group, or organization.

PEO3 Lifelong learning and innovation: Demonstrate the ability to set personal and professional goals and priorities, effectively plan and manage time, and organize work. identify and analyze emerging issues, products, and services that may affect public health policy, patient-centered and population-based therapeutic outcomes, medication use systems, and pharmacy benefits, develop new ideas and approaches to improve quality or overcome barriers to advance the profession. Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.

PEO4 Interprofessional collaboration: Collaborate as an integral part of an interprofessional team, inclusive of patients, caregivers, colleagues, health professionals and members of the community to make patient-centered pharmacotherapy decisions and care plans; prevent, identify, and resolve drug-related problems; and promote patient-centered and population-based health and actively participate and engage as a healthcare team member by demonstrating mutual respect, understanding, and values to meet patient care needs.

PEO5 Traits Improvement and Professionalism: Exhibit behaviours and values consistent with the trust given to the profession by patients, other healthcare providers, and society. Take responsibility for health outcomes and make rational and ethical decisions that represent the best interest of the patient and the community. Respect and actively engage the patient, the community, and other health professionals as well as respect the privacy and confidentiality of health information.

PROGRAMME OUTCOMES (PO'S)**Programme : PHARM.D**

PO1 Comprehensive pharmacy and clinical knowledge : Demonstrate mastery and application of core knowledge and skills in relation to the evolving pharmaceutical, biomedical, clinical and epidemiological sciences. This includes competency in areas supporting high quality pharmacy practice (e.g., pharmaceutics, medicinal chemistry, pharmacokinetics, pharmacodynamics, pharmacology, pathophysiology, pharmacotherapeutics, and pharmaceutical care).

PO2 Patient centered care : Provide patient-centered care to diverse patients using the best available evidence and in consideration of patients' circumstances to devise, modify, implement, document and monitor pharmacotherapy care plans, either independently or as part of healthcare teams.

PO3 Problem solving and decision making : Demonstrate the ability to use observational, analytical and critical thinking skills to develop, implement and evaluate solutions that solve pharmacotherapy problems and build the ability to take decisions based on evidenced based practice.

PO4 Social and cultural awareness : Recognize social determinants of health and respect patients' cultural, social and religious perspectives to produce safe and appropriate medication use throughout society. Reflect their knowledge, experiences, values, attitudes, biases and beliefs, to show evidence of being self-aware and life-long learners.

PO5 Professionalism : Exhibit professional ethics, attitudes and behaviors by demonstrating patient advocacy, altruism, accountability, compassion, integrity and respect for others. Understand, analyze and communicate the value of their professional roles in society (Ex. Health care professionals, health promoters, educators, managers, employers and employees).

PO6 Innovation and entrepreneurship : Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals. Utilize the principles of scientific enquiry and critical thinking while solving problems and making decisions in daily practice. Attain the key ability to start a community pharmacy or chain community pharmacies with patient care services.

PO7 Confidentiality and professional ethics : Practice ethically, maintaining patient confidentiality, responding to errors in care and professional misconduct (including plagiarism), and understanding principles of ethical research (including conflicts of interest and obtaining appropriate informed consent). Apply ethical principles while making decisions and take responsibility for the outcomes associated with decisions.

PO8 Interpersonal and communication skills : Demonstrate effective interpersonal written and verbal skills, adapt to socioeconomic and cultural factors as well as situational applications. Effectively educate families, patients, caregivers and other health care professional (HCPs). Function effectively in a team and act in a consultative position for other members of the health care team, regulatory agencies and policy makers.

PO9 Clinical pharmacist and society : Apply contextual knowledge to assess the societal health care needs and demonstrate effective planning abilities in order to solve problems related to health care practice. Educate and aware the patients regarding the aspect of health and prevention of diseases and provide them a cost-effective drug therapy.

PO10 Environment and sustainability : Understand the impact of professional pharmacy solution in societal and environmental context and demonstrate the knowledge and need of sustainable development.

PO11 Practice based learning and improvement : Evaluate practice and care, and promote continuous improvement in one's own patient care and pharmacy services. Demonstrate self-calibration skills and a commitment to the lifelong learning needed to provide high quality care. Locate, appraise and assimilate evidence from scientific studies to enhance the quality of care and services. Effectively utilize information, informatics and technology to optimize learning and patient care.

ACADEMIC CALENDAR
CLASS : I/IV B. PHARMACY (1st SEMESTER)
BATCH : 2023 EAMCET
ACADEMIC YEAR : 2023-2024

01. Quiz and group discussion are to be organized.
02. Skill development course on “Practical Skills in organic and analytical chemistry, Pharmaceutics and Human Anatomy and Physiology” will be organized during the academic year 2023-2024 for a period of 30 hours.

ACADEMIC CALENDAR
CLASS : I/IV B. PHARMACY (2nd SEMESTER)
BATCH : 2023 EAMCET
ACADEMIC YEAR : 2023-2024

ACADEMIC CALENDAR
CLASS : II/IV B. PHARMACY (3rd SEMESTER)
BATCH : 2022 EAMCET
ACADEMIC YEAR : 2023-2024

01	Orientation programme	30/11/2023
02	Last date for 1st Assignment submission	12/01/2024
03	Pongal Vacation	13/01/2024 - 17/01/2024
04	1 st Sessional Practical Examinations	24/01/2024 - 25/01/2024
05	1 st Sessional Theory Examinations	27/01/2024 - 31/01/2024
06	Last date for submission of 1st Sessional Marks Statement by the faculty	05/02/2024
07	Parent Teacher Meeting	06/02/2024
08	Last date for 2 nd Assignment submission	18/03/2024
09	Pre Semester End Examination (Open Book examination with multiple choice questions)	26/03/2024 - 28/03/2024
10	2 nd Sessional Practical Examinations	30/03/2024 - 01/04/2024
11	2 nd Sessional Theory examinations	02/04/2024 - 06/04/2024
12	Last date for submission of 2 nd Sessional mark statement by the faculty	10/04/2024
13	Parent-Teacher Meeting	12/04/2024
14	Closing of Class work	12/04/2024
15	Semester End Theory Examinations	13/04/2024 - 22/04/2024
16	Semester End Practical Examinations	24/04/2024 - 27/04/2024
17	2 nd Semester Supplementary Examinations	10/04/2024
TOTAL NO. OF WORKING DAYS		115

NOTE:

- Quiz and group discussion are to be organized.

ACADEMIC CALENDAR
CLASS : II/IV B. PHARMACY (4th SEMESTER)
BATCH : 2022 EAMCET
