Name of the faculty: Bolisetty Padmavathi

Designation: Assistant Professor

Department: Pharmacology

Research area of interest: Preclinical studies in neuro pharmacology

Innovative Teaching Methods:

- ❖ Giving key points of the lecture before starting any class.

- ❖ Pay attention to students' strengths and weaknesses. Rewarding their strengths and giving suggestions and tips to overcome their weaknesses

- ❖ Providing artificial and live models for better understanding of concerned topics.

- ❖ Encouraging every student to present their ideas infront of everyone.

- ❖ Motivate the student by live examples from day-to-day life.

- ❖ Using Power point presentations,videos,flow charts for good understanding.

- ❖ Concluding every class with Questionaire to clear their doubts.

- ❖ Research based learning by encouraging students to do mini projects.

- ❖ Evaluating the students understanding by conducting quiz programs and group discussion.
