ABOUT US

Chalapathi Institute of Pharmaceutical Sciences

- Chalapathi Institute of Pharmaceutical Sciences (CLPT) is situated in Lam, Guntur, Andhra Pradesh, 3 kilometers from Guntur Town en route to Amaravati. Established in 2004, the institute stands as a prominent center for pharmaceutical education and research. All its programs are permanently affiliated with ANU, approved by the Pharmacy Council of India (PCI), recognized by the Department of Technical Education, Government of Andhra Pradesh, DSIR for SIRO activities and MSME for incubation.
- The institute holds ISO 9001:2015 certification, is accredited by NAAC with an "A+" grade, and is recognized by the University Grants Commission (UGC) under sections 2(f) and 12B. Additionally, the B.Pharmacy program is accredited by the National Board of Accreditation (NBA). Since 2016, the institute has been granted autonomous status.
- Chalapathi Institute is dedicated to providing quality pharmaceutical education that meets global standards. To achieve this, it offers value-added courses such as professional ethics and human values, pharmacovigilance, clinical data management, and industry-oriented faculty training programs.
- It also emphasizes skill development initiatives to prepare students for the evolving pharmaceutical industry.

- The pharmaceutical industry is rapidly evolving, with AI and ML driving unprecedented advancements in drug discovery, clinical trials, personalized medicine, and healthcare cost management. This conference will provide a platform to discuss cutting-edge applications, innovative research, and real-world case studies showcasing how these technologies are reshaping pharmaceutical practices and economic models.
- Highlights of the conference include keynote addresses by eminent global experts, engaging panel discussions, technical sessions, and hands-on workshops. Topics will span a wide range, including AI-driven drug design, predictive analytics in clinical research, precision pharmacotherapy, digital health interventions, and the economic implications of AI/ML adoption in healthcare systems.
- Participants will have the opportunity to network, exchange ideas, and collaborate on future initiatives aimed at harnessing AI and ML to improve patient outcomes and optimize resource utilization in the pharmaceutical sector. The conference promises to be a significant step toward redefining the future of pharmaceutical sciences and pharmacoeconomics.
- We are excited to announce this prestigious event aims to bring together researchers, academicians, industry professionals, and students from around the world to explore the transformative potential of AI and ML in pharmaceutical sciences and pharmacoeconomics.
